DESCRIÇÃO

Objectives

This call aims to accelerate the uptake of advanced SME innovation in the field of civil security for society, focusing on mature technological solutions that address EU security policy priorities. The objectives are to foster collaboration between SMEs, public research partners, and academia, improve knowledge transfer, and mitigate barriers to finance and market access for innovative SMEs. The call specifically targets the areas of fighting crime and terrorism, disaster-resilient societies, resilient infrastructure, and border management. Eligible applicants are consortia of at least three and up to seven partners, including at least two SMEs from different EU Member States or Associated Countries and at least one end-user organisation relevant to the proposal's area. Participation of non-SME industries and research and

technology organisations is allowed but limited in budget share. Entities established in China or controlled by Chinese entities are not eligible.

Funding

Funding is provided as a non-refundable grant under the Horizon Europe Innovation Actions (IA) scheme. The funding rate is up to 70% of eligible costs for most participants, and up to 100% for non-profit legal entities. Each project is expected to receive a lump sum contribution of €1.5 million. At least 50% of the proposed budget must be allocated to SMEs, and participation of non-SME industries and RTOs is capped at 15% of the budget. The total topic budget is €4.5 million, with an expected three grants to be awarded.
