DESCRIZIONE

Objectives

This incentive supports research and innovation projects within the Horizon Europe framework, specifically targeting health-related challenges under the area "Staying Healthy". Eligible entities typically include research organizations, universities, companies, public bodies, and other organizations capable of participating in collaborative R&I projects at European level. The calls aim to foster integrated approaches, evidence-based solutions, and policy-relevant outcomes with significant European societal impact.

Funding

Funding is provided under a Horizon Europe Research and Innovation Action (RIA). The topic has an indicative budget of €39.3 million, with the European Commission expecting to fund approximately five projects. The expected EU contribution ranges between €6 million and €8 million per project, although proposals requesting different amounts may be considered where appropriately justified. As a Research and Innovation Action, funding may cover up to 100% of eligible costs, plus the applicable indirect cost

contribution, in accordance with Horizon Europe rules. Eligible costs will be provided in the form of a lump sum.
