DESCRIZIONE

Objectives

This topic aims to improve understanding of how Artificial Intelligence, AI-generated content, deepfakes and cyberviolence affect equality, political participation, democratic processes, public trust, social cohesion and knowledge production. Projects should examine both the deliberate misuse of AI, including disinformation, manipulated content and online harassment, and its unintended consequences, such as algorithmic opacity, biased outputs and the amplification of existing inequalities.

The action seeks to support responsible, transparent and human-centric AI governance, providing policymakers, technology developers, media organisations and civil society with evidence-based frameworks, tools and practices to protect fundamental rights and democratic integrity. Particular attention should be given to the disproportionate effects on children and young people, women, older persons, LGBTIQ people, minorities and other groups in vulnerable situations.

Funding

Funding is provided under a Horizon Europe Research and Innovation Action (RIA) . The topic has an indicative budget of €20 million , with approximately five projects expected to be funded. The expected EU contribution ranges between €3.5 million and €4 million per project , although proposals requesting different amounts may be considered where appropriately justified.

As a Research and Innovation Action, projects may receive funding of up to 100% of eligible costs for all beneficiary types . Eligible costs will be covered through a lump sum grant , in accordance with Horizon Europe rules. The call follows a single-stage procedure, opening on 13 May 2027 and closing on 23 September 2027 .

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

IDONEITÀ

Modalità di Candidatura

Aggregata / Partenariato

Settori Idonei

- ICT e Software
- Cultura e Creatività
- Istruzione e Formazione
- Altro

Tipologie Aziendali

- Microimpresa
- PMI
- Small Mid-Cap
- Mid-Cap
- Grande impresa
- Enti privati non profit

- Enti pubblici

Tipi di Azione

- Research and Innovation Action
- Multidisciplinary research on AI and democracy
- Development of detection and mitigation tools for AI-driven content
- Policy analysis of AI governance and regulation
- Academic and industry collaboration
