Data di Apertura

15 dicembre 2026

Phase 1

14 aprile 2027 alle ore 17:00 GMT+2

Descrizione

Objectives

The primary objective of this call is to assess the environmental impacts of airport operations, focusing especially on air and water quality issues that affect surrounding communities. Eligible entities include legal entities, typically as part of cross-border consortia, such as research organizations, universities, SMEs, large companies, and public bodies established in EU Member States or Horizon Europe Associated Countries. The call aims to develop reliable methodologies for measuring pollutant and noise emissions at and around airports, with a specific focus on real-world data. Assessment of health, noise, and ecological impacts, along with recommendations for improved measurement, are central objectives.

Funding

The action is funded under the Horizon Europe programme as a lump sum grant. The maximum EU contribution per project is around €3,500,000, with an overall topic budget of €7,000,000 and two grants

expected to be awarded. Maximum co-funding rates follow Horizon-RIA standards, with up to 100% of eligible costs covered for most beneficiaries. The grant follows a single-stage application process, with a proposal page limit as described in the application form.

Spese Ammissibili

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

Idoneità

Modalità di Candidatura

Aggregata / Partenariato

Settori Idonei

- Mobilità e Trasporti
- Energia e Ambiente
- Industria
- Salute e Life Sciences

Tipologie Aziendali

- Microimpresa
- PMI
- Grande impresa
- Enti pubblici
- Enti privati non profit

Tipi di Azione

- Research and Innovation Action
- Environmental monitoring
- Pilot projects
- Impact assessment
