DESCRIÇÃO

Objectives

This call aims to support the transition to a circular economy by extending product lifecycles through repair and refurbishment, particularly in the electronics, furniture, textiles, and footwear sectors. The objective is to enable professionals, consumers, local partners, social economy actors, and educators to adopt innovative repair and refurbishment practices, thereby reducing waste, environmental impacts, and biodiversity loss. The call also seeks to drive cost savings and job creation in the repair and refurbishment sector. Eligible applicants include consortia of legal entities established in EU Member States or Associated Countries, with the explicit exclusion of legal entities established in China. The involvement of social sciences and humanities (SSH) experts and institutions is required to enhance the societal impact of the research.

Funding

The support is provided as a non-refundable grant (lump sum) under the Horizon Europe Research and Innovation Actions (RIA) scheme. The funding rate is up to 100% of eligible costs. The EU contribution per

project is expected to be between €4 and €5 million, with a total topic budget of €9 million and an expected number of two grants awarded.

DESPESAS ELEGÍVEIS

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BÓNUS E MAJORAÇÕES

- Inclusion of social economy actors and educators in capacity building
- Accessibility and affordability for consumers with disabilities or limited resources
- Integration of social sciences and humanities expertise

ELEGIBILIDADE

Modalidade de Candidatura
Consórcio / Copromoção

Setores Elegíveis

- Indústria
- Cultura & Criativo
- Economia Social
- Outro

Tipologia de Beneficiário

- Micro
- PME
- Small Mid-Cap
- Mid-Cap
- Grande
- Entidades privadas sem fins lucrativos
- Entidades públicas

Tipos de Ação

- Develop and test modular, scalable training for repair and refurbishment in electronics, furniture, textiles, footwear

- Develop and test new repair and refurbishment services and strategies for uptake
- Create accessible and affordable repair services for all consumers, including those with disabilities or limited resources
- Promote community-based repair initiatives and knowledge sharing platforms
- Evaluate feasibility, effectiveness, and impact of new services using robust methods, including lifecycle assessments
- Research and Innovation Action
