DESCRIZIONE

Objectives

This incentive aims to enhance the competitiveness and sustainability of the EU's fisheries and aquaculture sectors by integrating circular economy principles. Eligible applicants are expected to include consortia of producers, processing industries, technology providers, researchers and other relevant stakeholders across the seafood supply chain. The central objective is the transformation of seafood chains by minimizing waste, improving by-product valorisation, advancing resource efficiency and maximizing socio-economic benefits for local communities, while promoting animal health and biodiversity.

Funding

Funding is provided under a Horizon Europe Innovation Action (IA) within the framework of the EU Mission "Restore our Ocean and Waters". The topic has an indicative budget of €30.9 million, with the European Commission expecting to fund four projects. The expected EU contribution ranges between €7.2 million and €7.725 million per project, although proposals requesting different amounts may be considered if adequately justified.

As a Horizon Europe Innovation Action, the funding rate is generally up to 70% of eligible costs for for-profit entities and up to 100% for non-profit organisations, in accordance with Horizon Europe funding rules.

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

IDONEITÀ

Modalità di Candidatura
Aggregata / Partenariato

Settori Idonei

- Economia Blu
- Agroalimentare
- ICT e Software
- Industria

Tipologie Aziendali

- Microimpresa
- PMI
- Small Mid-Cap
- Mid-Cap
- Grande impresa
