Application Phases

- Deadline: September 15, 2026 at 03:00 PM (100 days left)

Objectives

Objectives

This call targets the acceleration of deep renovation in Europe's multi-storey building stock by supporting projects that deliver cost-effective, highly energy-efficient renovation using prefabricated solutions. Proposals must demonstrate approaches that not only boost the energy performance of buildings to at least Nearly Zero-Energy Building (NZEB)

Information curated by Grantavia. Always confirm final details in the official regulation before preparing an application.

standards, but also increase resource efficiency, reduce renovation costs and limit disruption to occupants. Eligible entities include consortia of legal entities established in EU Member States or Associated Countries, except for legal entities from China, which are not eligible for Innovation Actions under this destination.

Financing

Funding is provided as a lump sum grant under the Horizon Europe programme, with an indicative EU contribution per project of around €7,000,000. The total budget for this topic is €28,000,000, expecting to fund four projects. The funding rate for Innovation Actions is typically up to 70% of eligible costs (except for non-profit legal entities where the rate is up to 100%). There are no explicit minimum or maximum project value amounts stated beyond the standard Horizon Europe framework, but the scale of demonstration is expected to justify the indicative contribution.

Constraints

The maximum project duration is not explicitly specified, but actions are expected to achieve Technology Readiness Level (TRL) 6-8 by project end. Projects must demonstrate their solution in three buildings in different countries and ensure coverage of diverse building typologies. Key result indicators include measurable reductions in renovation costs, increased energy and resource efficiency, reduced site disturbance (noise, dust, emissions), and improved occupant satisfaction. All projects must comply with Horizon Europe's general and specific admissibility and eligibility criteria, including additional provisions on legal and financial capacity, use of Copernicus/Galileo when relevant, and mandatory reporting towards Built4People partnership KPIs.

Eligible Expenses

- Personnel
- Travel and subsistence
- Other goods, works and services
- Equipment
- Subcontracting
- Indirect costs

Eligibility

Eligible Sectors

- Energy & Environment
- Construction

Company Sizes

- Micro
- Sme
- Small Mid-Cap
- Mid-Cap
- Large
- Private non-profit entities
- Public entities

Action Types

- Deep Renovation
- Innovation Action

- Demonstration Project
- Prefabricated Solutions
- Energy Efficiency

EU Programme Details

CALL ID

HORIZON-CL5-2026-09

CLUSTER

Cluster 5: Climate, Energy and Mobility

DESTINATION

Using energy in buildings and industry in an efficient, affordable and sustainable way (2026-27)

SUBMISSION MODE

Single-stage

EU CONTRIBUTION

around €7,000,000 per project

EXPECTED PROJECTS

4

FUNDING RATE RULE

Up to 70% of eligible costs (100% for non-profit entities)
