DESCRIÇÃO

Objectives

This topic aims to deepen scientific understanding of the positive effects of cultural experiences, cultural heritage, arts and the Cultural and Creative Sectors and Industries on health and well-being . Projects should identify the characteristics and conditions that make cultural experiences effective in preventing ill-health, promoting healthy behaviours and supporting the management and treatment of disease.

The action seeks to develop and validate scalable and replicable practices that can be used by cultural heritage institutions, cultural and creative organisations, healthcare providers, educators, public authorities and civil society. It should also strengthen the capacity and competitiveness of European cultural and creative sectors by enabling them to contribute systematically to health and well-being.

Funding

Funding is provided under a Horizon Europe Research and Innovation Action (RIA) . The topic has an indicative budget of €16 million , with approximately four projects expected to be funded. The expected EU contribution ranges between €3 million and €4 million per project , although proposals requesting different amounts may be considered where appropriately justified.

As a Research and Innovation Action, projects may receive funding of up to 100% of eligible costs for all beneficiary types , including for-profit entities. Funding is expected to follow the Horizon Europe grant conditions applicable to the topic.
