DESCRIÇÃO

Objectives

This topic aims to accelerate the transition towards climate-neutral, resilient and circular urban water systems by supporting the large-scale deployment of innovative solutions for wastewater, stormwater and water reuse management. The action contributes to the objectives of the EU Missions on Climate-Neutral and Smart Cities, Climate Adaptation and the Circular Cities and Regions Initiative (CCRI), promoting integrated approaches that improve water efficiency, resource recovery and climate resilience in urban areas.

Projects are expected to demonstrate how cities and regions can transform urban water management through innovative technologies, nature-based solutions and circular economy approaches, while

supporting compliance with emerging EU regulatory requirements and reducing environmental impacts. Strong participation of local authorities, water utilities and regional stakeholders is essential to ensure long-term adoption and replication of solutions.

Funding

Funding is provided under a Horizon Europe Innovation Action (IA). The topic has an indicative budget of €28.5 million, with the European Commission expecting to fund three projects. The expected EU contribution is around €9.5 million per project, although proposals requesting different amounts may be considered where appropriately justified.

As a Horizon Europe Innovation Action, the funding rate is generally up to 70% of eligible costs for for-profit entities and up to 100% for non-profit organisations, in accordance with Horizon Europe funding rules.

DESPESAS ELEGÍVEIS

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

ELEGIBILIDADE

Modalidade de Candidatura
Consórcio / Copromoção

Setores Elegíveis

- Energia & Ambiente
- Indústria

Tipologia das Empresas

- Micro
- PME
- Grande
- Entidades públicas
- Entidades privadas sem fins lucrativos

Tipos de Ação

- Demonstration of wastewater management solutions
- Nature-based storm water management
- Energy efficiency and resource recovery technology deployment
- Replication and upscaling in cities and regions

- Policy and governance framework development
- Innovation Action

DETALHES DO PROGRAMA UE

ID da Chamada	Cluster
HORIZON-MISS-2027-07-CLIMA-CIT-CCRI-02	Missions
Destino	Modo de Submissão
Joint Call between the Climate-Neutral and Smart Cities Mission and the Adaptation to Climate Change Mission	Single-stage
Contribuição UE	Projetos Esperados
Around €9,500,000.00 per project	3
Regra de Taxa de Financiamento	
Up to 70% for Innovation Actions (up to 100% for non-profit entities only)
