DESCRIZIONE

Objectives

This topic aims to improve understanding of the relationship between development aid and democratic governance , supporting more effective and equitable EU development cooperation. Projects should examine how development assistance affects democratic institutions, human rights, the rule of law, security, poverty reduction and socio-economic and gender inequalities, particularly in EU Enlargement and Neighbourhood countries and in low- and lower-middle-income countries.

The action seeks to equip EU and national policymakers, development agencies and cooperation organisations with evidence and practical recommendations for designing strategies that strengthen democratic institutions, inclusive governance and sustainable peace. It should also identify opportunities to reinforce the EU's geopolitical influence and soft power across the Humanitarian-Development-Peace nexus, including through climate, water and science diplomacy.

Funding

Funding is provided under a Horizon Europe Research and Innovation Action (RIA) . The topic has an indicative budget of €12 million , with approximately three projects expected to be funded. The expected EU contribution ranges between €3.5 million and €4 million per project , although proposals requesting different amounts may be considered where appropriately justified.

As a Research and Innovation Action, projects may receive funding of up to 100% of eligible costs for all beneficiary types .
