DESCRIÇÃO

Objectives

This topic aims to advance existing prophylactic and therapeutic monoclonal antibody candidates against selected emerging and re-emerging viral infections. The objective is to make clinically relevant experimental antibodies available for further investigation and expand the therapeutic options that could be rapidly deployed during future epidemics or pandemics. The topic also supports the European Medical Countermeasures Strategy and seeks to reinforce European preparedness and leadership in antiviral research and development.

Funding

Funding is provided under a Horizon Europe Research and Innovation Action (RIA). The topic has an indicative budget of €37.3 million, with approximately four projects expected to be funded. The anticipated EU contribution ranges from €9 million to €10 million per project, although proposals requesting different

amounts may be considered where appropriately justified. As an RIA, the action may receive funding of up to 100% of eligible costs, in accordance with Horizon Europe rules.

DESPESAS ELEGÍVEIS

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

ELEGIBILIDADE

Setores Elegíveis

Saúde & Ciências da Vida

Modalidade de Candidatura

Consórcio / Copromoção

Tipologia de Beneficiário

- Micro
- PME
- Small Mid-Cap
- Mid-Cap
- Grande
- Entidades não empresariais do sistema de I&I (ENESII)
- Entidades privadas sem fins lucrativos
- Entidades públicas

Tipos de Ação

- Research and Innovation Action
- Development of new diagnostics
- Therapeutic solutions
- International cooperation
- Disease surveillance

DETALHES DO PROGRAMA UE

ID da Chamada	Cluster
HORIZON-HLTH-2027-01-DISEASE-07	Health
Destino	Modo de Submissão
D3. Tackling diseases and reducing disease burden	Single-stage
Contribuição UE	Projetos Esperados
Around €9,000,000.00 to €10,000,000.00 per project	4
Regra de Taxa de Financiamento	
Up to 100% of eligible costs for Research and Innovation Actions (RIA)
