4 novembre 2027 alle ore 17:00 GMT+1

DESCRIZIONE

Objectives

This call aims to develop effective and evidence-based responses to the increased availability and use of synthetic drugs and stimulants in Europe. The objective is to strengthen the evidence base for prevention, treatment, and harm reduction strategies, and to equip European security practitioners—including Police Authorities, Civil Society Organisations (CSOs), and Non-Governmental Organisations (NGOs)—with the skills, tools, and technologies needed to reduce violence and offences associated with these substances. The call also seeks to enhance understanding of the external drivers influencing drug markets and consumption, such as societal, technological, legal, economic, and ethical factors. Eligible applicants must include at least three Police Authorities and at least two CSOs or NGOs from at least three different EU Member States or Associated Countries. Legal entities established in China are not eligible to participate.

Funding

The support is provided as a non-refundable grant under the Horizon Europe Innovation Actions (IA) scheme. The funding rate is up to 70% of eligible costs for most participants, and up to 100% for non-profit legal entities. Each project is expected to receive a lump sum contribution of €4 million, with a total topic budget of €8 million and two grants expected to be awarded.

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BONUS E MAGGIORAZIONI

- Active involvement of Civil Society Organisations/NGOs
- Active involvement of Police Authorities as beneficiaries
- Active involvement of SMEs
- Tools validated against practitioners' needs
- Use of Copernicus and/or Galileo/EGNOS if satellite data is used
- Education and training aspects for Police Authorities
- Access at little or no cost to created tools for Police Authorities
- Synergy-building and clustering with related projects
- Robust plan for research data acquisition and TRL measurement
- Cooperation with CEPOL for training aspects
- Compliance with cybersecurity best practices and data standards
- Strategy for uptake and sustainability of project results

IDONEITÀ

Modalità di Candidatura

Aggregata / Partenariato

Settori Idonei

- Salute e Life Sciences
- ICT e Software
- Economia Sociale

Tipologie Aziendali

- Microimpresa
- PMI
- Small Mid-Cap
- Mid-Cap
- Grande impresa
- Enti privati non profit
- Enti pubblici

Tipi di Azione

- Evidence-based prevention, treatment, and harm reduction strategies for synthetic drugs
- Development and validation of tools and technologies for law enforcement
- Analysis of external drivers (societal, legal, economic, technological) on drug markets
- Collaboration with security practitioners, policymakers, and researchers
- Assessment of socio-economic and cultural factors influencing drug-related violence
- Evaluation of current interventions and identification of best practices
- Improvement of supply chain monitoring and anti-trafficking technologies
- Engagement with Europol Innovation Lab and EU Drugs Agency
- Mid-term outcome assessment by security practitioners
- Balanced approach to technological and societal dimensions
- Education and training for police and practitioners
- Information sharing and citizen awareness raising
- Innovation Action
