Objetivos

Objectives

The EIC Transition Open 2026 supports innovation activities that mature and validate innovative technologies beyond the experimental proof of principle in the laboratory. The main objective is to help applicants progress their novel technologies from Technology Readiness Level (TRL) 3, through initial validation, up to TRL 5 or 6, ready for

commercialisation. Eligible entities include single legal entities or consortia from EU Member States and associated countries, building upon results achieved in prior eligible projects that have reached at least TRL 3.

Funding

The total budget allocated for this call is €100,000,000. Projects can request lump sum contributions ranging from €500,000 to €2,500,000. The co-financing rate is up to 100% of eligible costs. Funding is provided under a lump sum grant model for greater flexibility and efficiency. Approximately 40 grants are expected to be awarded under this call, according to the indicative number of individual projects supported.
