DESCRIZIONE

Objectives

This call focuses on reinforcing the EU's capabilities and leadership in the development of frontier artificial intelligence (AI) models that are both safe and computationally efficient. The incentive aims to consolidate European excellence in AI by advancing the creation of sovereign AI architectures and embedding safety by design into next-generation models. It actively seeks participation from the European AI research community, supporting legal entities established in EU Member States, Iceland, Norway, and several associated countries, with restrictions on entities controlled by non-eligible countries, notably China. The program prioritizes initiatives bringing together leading actors in AI to further the EU's strategic interests, autonomy, and security.

Funding

Projects are funded as Research and Innovation Actions (RIA) under Horizon Europe. The maximum indicative EU contribution is around 44,000,000 EUR for the supported project, with one grant expected to be funded per topic. The maximum co-financing rate is 100% of eligible costs, consistent with Horizon Europe RIA rules. The total call budget is 44,000,000 EUR. Applicant consortia are responsible for compliance with detailed eligibility rules regarding ownership and control from third countries, as well as detailed documentation required for grant signature.

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

IDONEITÀ

Modalità di Candidatura

Aggregata / Partenariato

Settori Idonei

- Industria
- ICT e Software

Tipologie Aziendali

- PMI
- Grande impresa
- Enti privati non profit
- Enti pubblici

Tipi di Azione

- Research and innovation on frontier artificial intelligence models
- Development of safe-by-design AI systems
- Methods to reduce computational demands in AI
- AI safety, alignment, robustness, and interpretability research
- Benchmarking and progress monitoring
- Cohesion and partnership activities across European AI networks

DETTAGLI PROGRAMMA UE

ID Bando	Cluster
HORIZON-CL4-2027-04-DIGITAL-EMERGING-11	4. Digital, Industry and Space
Destinazione	Modalità di Presentazione
D3. Achieving open strategic autonomy in digital and emerging enabling technologies	Single-stage
Contributo UE	Progetti Previsti
around 44 000 000 EUR	1
Regola del Tasso di Finanziamento	
Up to 100% of eligible costs for Research and Innovation Actions (RIA)
