DESCRIZIONE

Objectives

The European City Facility Call 8 aims to support municipalities and local authorities in transforming actions identified in their climate and energy plans into credible and investment-ready concepts. Through targeted financial and technical support, the EUCF helps local authorities prepare sustainable energy investments and strengthen their capacity to mobilise subsequent public and private financing. EUCF aims to support especially small and medium-sized municipalities and, if feasible, encourages them to team up, groupings are appreciated in the evaluation process.

Under Call 8, applicants are required to have a climate and/or energy plan or a Local and Heating Cooling Plan. This includes SECAPs (Sustainable Energy and Climate Action Plans), developed within the Covenant of Mayors initiative, or other climate and/or energy plans with mitigation targets. For the first time It also includes all Heating and Cooling plans developed in line with Article 25(6) of the Energy Efficiency Directive (EU) 2023/1791, or similar.

Eligible applicants include municipalities, local authorities and groupings located in EU Member States, Iceland, Ukraine, Moldova, Montenegro or North Macedonia. Moldova, Montenegro and North Macedonia are newly eligible under Call 8.

Funding

The programme will allocate a total budget of 11.1 million EUR for the initial call, supporting up to 185 beneficiaries with grants of 60,000 EUR each. The call applies a lump-sum model with each funded project receiving up to 60,000 EUR. Project funding is provided on a non-refundable grant basis, supporting full development of investment concepts.
