OBIETTIVI

This call aims to leverage Europe's world-class research and technology infrastructures to attract global scientific talent and strengthen Europe's position as a preferred partner for international scientific cooperation. The initiative supports the creation of interconnected international scientific networks centered around European research and technology infrastructures, including their university partners and alliances. It seeks to promote Europe as a destination for top scientific talent and to enhance the visibility and communication of European infrastructures as world-class hubs for science and innovation. Eligible applicants are consortia that must include at least one ESFRI Landmark and/or European Research Infrastructure Consortium (ERIC) as a beneficiary. Legal entities from EU Member States, Associated Countries, and, in exceptional cases, non-associated third countries may participate. The Joint Research Centre (JRC) may participate as a beneficiary with zero funding or as an associated partner.
