DESCRIZIONE

Objectives

The Eurostars Call 12 supports international collaborative R&D and innovation projects led by innovative SMEs and involving at least two independent entities from a minimum of two Eurostars countries, including at least one from an EU or Horizon Europe Associated Country. The main goal is to help innovative small and medium-sized enterprises develop new products, processes, or services that are easily commercializable. Consortia can include a range of participants, such as large companies, universities, research organisations, and other organizations, provided the project is SME-led. Projects must focus exclusively on civil applications and comply with both international and national eligibility criteria to qualify for support.

Funding

Funding is provided as non-refundable grants. The amount of funding per participant and the exact co-financing rate vary by country and type of organization. Maximum co-funding rates can reach:

- Up to 100% for public research organisations/universities in some countries (e.g., Czech Republic, Latvia, Hungary)
- Up to 80% for SMEs (e.g., Estonia, Latvia, Iceland, Hungary)
- Up to 70% for small companies (e.g., Flanders, Malta, Denmark)
- Lower rates for large companies, typically from 30% up to 65%

Most countries set maximum grant amounts per participant (e.g., €500,000 per participant or per country; €100,000 per participant per year in Latvia). Some countries allow higher caps for research and lower for experimental development. The maximum duration for Eurostars projects is 36 months.

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting

BONUS E MAGGIORAZIONI

- Additional funding possible for strong SME collaboration (varies by country)
