Não definida

DATA DE ABERTURA

9 de julho de 2026

## Fases de Candidatura

- Deadline: 10 de setembro de 2026 às 12:00

## Objetivos

### Objectives

The Eurostars joint transnational call aims to support innovative small and medium-sized enterprises (SMEs) and other project partners—including large companies, universities, and research organisations—by funding international collaborative R&D and innovation projects. The main objective is to encourage the development of market-oriented products, processes, or services with a strong potential for commercialisation, both in Europe and globally. Eligible consortia must be led by an innovative SME from a Eurostars country and include at least two independent entities

from at least two Eurostars countries, with at least one coming from an EU or Horizon Europe Associated Country. Other eligible partners include large companies and public or private research organisations.

### **Financing**

The amount and form of funding depend on the rules of each partner country's national funding body, which determines eligible organisations, activities, co-financing rates, and maximum grant amounts per project or partner. There is no single maximum EU financial contribution for all projects; total funding may vary by country. Typically, SMEs from Eurostars countries receive a significant share of project funding, constituting at least 50% of the total project cost (excluding subcontracting). Applicants should check with their relevant national agencies for applicable funding ceilings.

### **Constraints**

The maximum project duration is 36 months, although justified extensions may be permitted with approval from the Eureka Secretariat and respective funding agencies. The project budget must be balanced, with no participant or country exceeding 70% of the project budget. All projects must exclusively target civil applications. Performance indicators include the project's capacity to generate new knowledge, technical progress, plans for commercialisation, and societal impact. Applicants must fulfill both Eurostars' international eligibility rules and any additional national or regional requirements. Selection is based on consortium quality, innovation excellence, and expected market impact, evaluated by independent experts.

---

## **Despesas Elegíveis**

- Personnel costs
- Subcontracting
- Travels and subsistence
- Equipment
- other goods and services

---

## **Elegibilidade**

### **Setores Elegíveis**

- Agroalimentar
- Indústria
- Energia & Ambiente
- TIC & Software
- Turismo
- Saúde & Ciências da Vida
- Mobilidade & Transportes
