DESCRIÇÃO

Objectives

This incentive aims to reinforce European leadership and participation in global digital standardisation, directly supporting the EU Standardisation Strategy and complimentary policy initiatives like Europe's Digital Decade and the Competitiveness Compass. The primary objective is to increase the visibility and influence of European experts especially those from SMEs, open-source communities, academia, R&I institutions, and societal stakeholders in setting international digital standards. By empowering European stakeholders to actively engage in technical committees and global standards bodies, the call strives to strengthen EU competitiveness, champion EU values and strategic interests, and promote technological autonomy. Eligible applicants include consortia established in EU or Horizon Europe associated countries, while legal entities from China are expressly ineligible.

Funding

The total call budget is €7,000,000, with a single anticipated grant of approximately €7,000,000 per project. Funding is awarded as a non-refundable grant with a 100% funding rate for eligible costs. Each third-party expert can receive up to €60,000. Proposals must allocate a minimum of 75% of the requested EU contribution to open calls for experts. Eligible costs must be justified as per lump sum grant requirements as defined for Horizon Europe.

DESPESAS ELEGÍVEIS

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

ELEGIBILIDADE

Modalidade de Candidatura
Consórcio / Copromoção

Setores Elegíveis

- Indústria
- TIC & Software
- Outro

Tipologia das Empresas

- Micro
- PME
- Small Mid-Cap
- Mid-Cap
- Grande
- Entidades não empresariais do sistema de I&I (ENESII)
- Entidades privadas sem fins lucrativos
- Entidades públicas

Tipos de Ação

- Coordination and Support Action
- Digital standardisation leadership
- Training and competence development
- Workshops and international standardisation meetings

- Gap and landscape analysis
- Foresight analyses
- Promotion of digital standardisation
