DESCRIPTION

Objectives

This Horizon Europe Research and Innovation Action (RIA) aims to accelerate the development and adoption of breakthrough innovations supporting the Chemical Industry Action Plan , with a particular focus on decarbonisation, circularity and safer chemical production. The call seeks to support disruptive innovations that can reduce the environmental impact of energy-intensive industries, enable circular production models, and develop alternatives to substances of concern through new chemical substances, advanced materials, or innovative technologies. Projects are expected to demonstrate a clear pathway towards industrial uptake and long-term market impact.

Funding

The topic is funded as a Horizon Europe Research and Innovation Action (RIA) with an indicative budget of €15 million . The call follows a single-stage submission process and supports collaborative research and innovation projects capable of generating breakthrough solutions for the European chemical industry and related industrial sectors. Funding is provided according to Horizon Europe RIA rules.
