DESCRIZIONE

Objectives

This Horizon Europe Research and Innovation Action (RIA) aims to support breakthrough innovations in industrial technologies at an early stage of development. As an open-topic call, it seeks to generate disruptive research and novel technological concepts capable of feeding the future innovation pipeline of European industry. Projects must contribute to the Strategic Research and Innovation Agendas (SRIAs) of at least one of the following partnerships: Made in Europe, Processes4Planet, Clean Steel, Innovative Advanced Materials for the EU (IAM4EU), and Textiles for the Future . The objective is to create a strong pathway from emerging research results towards future industrial impact and technological leadership.

Funding

The topic is funded as a Horizon Europe Research and Innovation Action (RIA) with a total indicative budget of €20 million . The European Commission expects to support approximately eight projects , with indicative EU contributions of up to €2.5 million per project . Funding is intended for collaborative research projects capable of generating disruptive industrial innovations and creating a foundation for future scale-up and deployment activities.
