## Objectives

### Objectives

This incentive under the Horizon Europe programme focuses on advancing research and innovation in the field of cancer. It aims to support eligible entities such as research organizations, academic institutions, companies, and public entities across Europe that are engaged in activities related to cancer prevention, diagnosis, treatment, and

survivorship. The call encourages the participation of multidisciplinary consortia to address challenges and promote integrated cancer solutions.

## **Funding**

Funding is provided in the form of non-refundable grants. The maximum co-financing rate can reach up to 100% for certain eligible entities, with specific rules applicable for different participant types. The available budget limits and minimum/maximum project amounts are regulated by the official call documents. Applicants must comply with defined thresholds for total eligible costs.
