DATA DE ABERTURA

10 de fevereiro de 2026

Fases de Candidatura

- Deadline: 15 de setembro de 2026 às 15:00 (100 dias restantes)

Objetivos

Objectives

This incentive aims to improve the quality of life for cancer patients aged 65 years and above across Europe. Older cancer patients currently represent the largest group of cancer diagnoses, yet there is a significant knowledge gap in their functional health and care needs both during and after treatment. The objective is to develop innovative,

age-specific approaches to care, provide evidence for tailored treatment, and address the unique vulnerabilities of older adults, such as increased risk of treatment toxicity, multiple comorbidities, and reduced representation in research. Eligible entities include multidisciplinary consortia featuring healthcare providers, academia, patient representatives, SMEs, regional and national health authorities, and social science and humanities (SSH) experts. The direct involvement of patients and survivors, alongside their caregivers and relevant SSH expertise, is mandatory to generate significant research impact and innovative care solutions.

Funding

The single-stage call allocates a total of €25 million, with an indicative EU contribution per project ranging from €5,000,000 to €6,000,000. Up to five grants are expected to be awarded under this topic. The maximum funding rate for Research and Innovation Actions (RIA) is 100% of eligible costs. No explicit minimum or maximum project value beyond the contribution range indicated.

Despesas Elegíveis

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

Elegibilidade

Setores Elegíveis

- TIC & Software
- Saúde & Ciências da Vida
- Educação & Formação
- Economia Social

Dimensão das Empresas

- Micro
- PME
- Small Mid-Cap
- Mid-Cap
- Grande
- Entidades privadas sem fins lucrativos
- Entidades públicas

Modalidade de Candidatura

- Consórcio / Copromoção

Tipos de Ação

- Clinical research and trials
- Innovative care models
- Rehabilitation services

- Patient-reported outcomes development
- Open data and open science practices
- Societal engagement and SSH integration
