DESCRIÇÃO

Objectives

This call aims to enhance the analytical capacity for sustainable competitiveness in the agricultural sector. The objective is to provide farmers, policy makers, and other decision makers in the agri-food supply chain with improved understanding and tools to balance competitiveness with sustainability and resilience. The call supports the EU Vision for Agriculture and Food, the Competitiveness Compass, the Common Agricultural Policy, and the sustainability objectives of the Green Deal and the SDGs. Eligible applicants are consortia that implement the multi-actor approach, including a balanced mix of actors such as farmers, researchers, businesses, and other relevant stakeholders from agri-food supply chains. International cooperation, especially with Mediterranean countries, is encouraged, and the effective contribution of Social Sciences and Humanities disciplines is required. The Joint Research Centre (JRC) may participate as a consortium member.

Funding

The call provides a single grant of up to 6.000.000 EUR, covering up to 100% of eligible costs as a lump sum under the Horizon Europe Research and Innovation Actions (RIA) scheme. The total topic budget is 6.000.000 euros, and only one grant is expected to be awarded.

DESPESAS ELEGÍVEIS

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BÓNUS E MAJORAÇÕES

- International cooperation, especially with Mediterranean countries, is encouraged
- Effective contribution of Social Sciences and Humanities is required
- Synergies with other EU-funded projects and initiatives are encouraged
- Participation of the Joint Research Centre (JRC) is possible

ELEGIBILIDADE

Modalidade de Candidatura
Consórcio / Copromoção

Setores Elegíveis

- Agroalimentar
- Indústria
- Energia & Ambiente
- TIC & Software
- Outro

Tipologia de Beneficiário

- Micro
- PME
- Small Mid-Cap
- Mid-Cap
- Grande
- Entidades privadas sem fins lucrativos

- Entidades públicas

Tipos de Ação

- Address analytical gaps on competitiveness in agri-food sector
- Improve analytical tools and data collection for agriculture
