## DESCRIZIONE

### Objectives

This call aims to enhance the sustainable and circular use of biomass, particularly bio-waste, by supporting private and public stakeholders in increasing resource efficiency in collecting, processing, and using both primary and secondary biomass. The objectives include protecting and restoring ecosystems and biodiversity, reducing greenhouse gas emissions and pollution, and ensuring food security and fair access to biomass resources. The call is open to consortia involving a multi-actor approach, including primary producers, industry representatives, regional and local authorities, and research institutions. Legal entities established in EU Member States and Associated Countries are eligible, except for those established in China, which are not eligible for participation in Innovation Actions under this destination.

### Funding

The support is provided as a non-refundable grant in the form of a lump sum. The funding rate is up to 70% of eligible costs for Innovation Actions, and up to 100% for non-profit legal entities. The total budget for the

topic is €14 million, with an expected grant size of €7 million per project. Two grants are expected to be awarded under this call.
