DESCRIÇÃO

Objectives

This call aims to enhance the capabilities of European law enforcement to address the growing security challenges linked to climate change. The focus is on equipping Police Authorities with specialized skills and technologies to counter illegal activities that arise due to climate-related phenomena, such as resource scarcity, migration, and new criminal patterns. The call also seeks to improve policymakers' understanding of how climate change impacts law enforcement and to deepen knowledge of the social dynamics affected by climate change, which may increase demands on public order. Eligible applicants are consortia that must include at least two Police Authorities from two different EU Member States or Associated Countries. The active involvement of other security practitioners, such as civil security services, border guards, or customs authorities, is encouraged. Social Sciences and Humanities (SSH) expertise is required to ensure meaningful societal impact, and gender-specific dimensions should be considered where relevant.

Funding

The support is provided as a non-refundable grant under the Horizon Europe Research and Innovation Actions (RIA) scheme. The funding rate is up to 100% of eligible costs. Each grant is expected to be €4 millions, with a total topic budget of €8 millions and two grants anticipated. Eligible costs are covered as a lump sum. The grant covers all necessary expenses for research, development, validation, and dissemination activities as outlined in the project proposal.

DESPESAS ELEGÍVEIS

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BÓNUS E MAJORAÇÕES

- Active involvement of at least 2 Police Authorities from different EU/Associated Countries is mandatory
- Cooperation with CEPOL for training-related aspects
- Engagement with Europol Innovation Lab for validation and uptake
- Balanced inclusion of technological and societal (SSH) perspectives
- Consideration of gender-specific vulnerabilities and needs
- Use of Copernicus and/or Galileo/EGNOS if satellite data is used

ELEGIBILIDADE

Modalidade de Candidatura
Consórcio / Copromoção

Setores Elegíveis

- Energia & Ambiente
- Indústria
- Saúde & Ciências da Vida

Tipologia de Beneficiário

- Micro
- PME
- Small Mid-Cap
- Mid-Cap
- Grande

- Entidades privadas sem fins lucrativos
- Entidades públicas

Tipos de Ação

- Research and innovation on law enforcement responses to climate-related crime
- Development and validation of new technologies and forensic tools for police authorities
- Analysis of links between climate change, resource scarcity, and organised crime
- Assessment of social dynamics and vulnerabilities related to climate-driven crime
- Training and capacity building for police authorities and security practitioners
- Engagement with Europol Innovation Lab and CEPOL for uptake and validation
- Balanced integration of technological and societal approaches
- Involvement of Social Sciences and Humanities (SSH) expertise
