Descrizione

Objectives

This funding opportunity is available under the Horizon Europe Programme. The main objectives are to support collaborative research and innovation actions under the European Union framework, specifically focusing on cross-sectoral and multi-stakeholder engagement. Eligible applicants can include research organizations, higher education institutions, public bodies, private enterprises, SMEs, and other entities established in EU Member States or associated countries.

Project Types

Project typologies generally include activities advancing knowledge, technology, pilot projects, demonstration actions, and capacity building. Eligible expenses typically cover direct research costs, personnel costs, subcontracting, consumables, travel and subsistence, equipment, dissemination, project management, and networking activities related to the funded action. Associated actions must focus on clear deliverables that fit within the scope of the 'HORIZON-MISS-2026-04-CIT-NEB-B4P-CCRI-03' topic.

Funding

Projects are generally co-financed up to a set percentage of eligible costs, with the maximum funding rate often reaching up to 100% for research activities and varying for innovation actions and commercial partners. Budget limits, minimum or maximum grant amounts, and overall available funding are specified in the formal call documentation. Applicants are encouraged to review the official portal for specific financial figures relevant to this topic.

Key Aspects

The typical maximum project duration, performance indicators, and more detailed participation rules are available in the official call text and work programme. Projects are assessed based on criteria such as excellence, impact,

implementation, consortium composition, and expected contribution to EU policy goals. Selected projects must comply with standard Horizon Europe grant conditions, data management requirements, and reporting obligations.
