OBIETTIVI

This call aims to support transformative change towards a nature-positive economy and society by empowering stakeholders to co-create, deploy, and replicate viable ecosystem restoration measures. The focus is on overcoming implementation bottlenecks and improving resilience to risks, particularly in the context of the EU Nature Restoration Regulation (NRR). The call targets a broad range of stakeholders, including researchers, land and water managers, policy makers, economic actors, civil society, social partners, municipalities, and regions. Proposals must apply a multi-actor approach, ensuring active involvement of relevant stakeholders at all stages. Eligible applicants include consortia from at least three different EU Member States and/or Associated Countries, covering different geographical regions or climate zones, and including sites in outermost regions. Social sciences and humanities (SSH) expertise must be integrated throughout the project.
