DESCRIÇÃO

Objectives

This call aims to enhance the capacities and integrated governance of researchers, decision-makers, practitioners, local communities, and other stakeholders to effectively collaborate in preventing, eradicating, or managing invasive alien species (IAS). The ultimate goal is to better protect native ecosystems, improve their resilience, and ensure the continuous provision of ecosystem services, including those relevant for climate mitigation and adaptation. The call is open to consortia involving entities from at least three different EU Member States and/or Associated Countries. Eligible applicants include research organizations, universities, public authorities, SMEs, civil society, and other relevant stakeholders. The topic requires effective contributions from social sciences and humanities to maximize societal impact.

Funding

The support is provided as a non-refundable grant under the Horizon Europe Research and Innovation Actions (RIA) scheme. The funding rate is up to 100% of eligible costs. Each project is expected to receive

a contribution of €8 million, with a total topic budget of €24 million and an expected three grants to be awarded. Financial support to third parties is allowed, with a maximum of €60000 per third party and up to 30% of the total EU funding per project.
