OBIETTIVI

This call aims to establish a European network of living labs and lighthouses dedicated to nature restoration, supporting the scale-up of solutions and addressing bottlenecks to implementation. The initiative targets improved connectivity among living labs, enhanced involvement in policy development, and better access to knowledge and experience. The network should foster cooperation between research, practice, and policy, with a focus on practitioners such as farmers, foresters, fishers, rural/local communities, and traditional knowledge holders. Public authorities, landowners, water stakeholders, and bioeconomy actors are also key participants. The call is open to consortia applying the multi-actor approach, ensuring the involvement of all relevant stakeholders, including researchers, civil society, financing institutions, and buyers' clubs for certified environmental outcomes. Eligible applicants include entities from EU Member States and Associated Countries, with a requirement for balanced participation across countries and gender.
