4 novembre 2027 alle ore 17:00 GMT+1

DESCRIZIONE

Objectives

This call aims to support the rapid development and deployment of detection and investigation tools to counter current, emerging, and foreseeable online harms. The focus is on providing Police Authorities in Europe with agile, modular, and adaptable toolsets that can be updated in response to evolving threats such as identity theft, disinformation, deepfakes, spoofing, phishing, digital violence, and online payment fraud. The call encourages collaboration among Police Authorities, researchers, policymakers, and other stakeholders to ensure that the developed tools are effective, user-friendly, and compliant with legal and ethical standards. Eligible applicants must form consortia that include at least three Police Authorities from three different EU Member States or Associated Countries. The active involvement of other law

enforcement bodies, NGOs, CSOs, and SMEs is also encouraged. Entities established in China or controlled by Chinese entities are not eligible.

Funding

The call provides a lump sum grant under Horizon Europe Innovation Actions. The total available budget for the topic is €7.833 million, with the expected grant amount matching this figure. The funding rate is up to 70% of eligible costs for most participants, and up to 100% for non-profit legal entities. Only one grant is expected to be awarded under this topic.

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BONUS E MAGGIORAZIONI

- Active involvement of at least 3 Police Authorities from 3 different EU/Associated Countries
- Up to 100% funding rate for non-profit legal entities
- Cooperation with Europol Innovation Lab and CEPOL
- Special consideration for gender-based and vulnerable groups
- Preference for modular, easily integrated tools
- Access to created tools at little or no cost for Police Authorities
- Synergy with previous EU-funded projects and clustering initiatives

IDONEITÀ

Settori Idonei
ICT e Software

Modalità di Candidatura
Aggregata / Partenariato

Tipologie Aziendali

- Microimpresa
- PMI
- Small Mid-Cap
- Mid-Cap
- Grande impresa
- Enti privati non profit
- Enti pubblici

Tipi di Azione

- Development of modular detection and investigation tools for online harms
- Rapid deployment and iterative improvement of digital security solutions
- Collaboration with Police Authorities and security practitioners
- Integration of feedback from end-users into tool development
- Engagement with Europol Innovation Lab and relevant EU agencies
- Training and capacity building for Police Authorities
- Real-time monitoring and risk assessment of online threats
- Early detection of fraudulent online activities
- Adaptation to emerging cybercrime trends
- Validation of tools against practitioner needs
- Implementation of data exchange and cybersecurity standards
- Awareness raising and information sharing with citizens
- Innovation Action
