DESCRIÇÃO

Objectives

This call aims to support the preparation for future pre-commercial procurement (PCP) of innovative security technologies. The main objective is to establish a consolidated group of potential buyers with shared needs and requirements, committed to carrying out a PCP action for the joint procurement of innovative solutions. The action should provide clear evidence justifying the necessity of a PCP to complete the maturation cycle of certain technologies and compare different alternatives. It also seeks to increase the capacity of EU public procurers to align requirements with industry and attract innovation from security and other sectors. Eligible applicants must include at least 6 end-user organisations and at least 3 public procurers from at least 3 different EU Member States or Associated Countries. One entity can count as both

an end-user and a public procurer. Open market consultations must be conducted in at least 3 EU Member States or Associated Countries. Legal entities established in China are not eligible to participate.

Funding

The support is provided as a non-refundable grant in the form of a lump sum. The funding rate is up to 100% of eligible costs for Coordination and Support Actions (CSA). Each project is expected to receive a contribution of €1 million, with a total topic budget of €2million and an expected number of 2 grants.

DESPESAS ELEGÍVEIS

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BÓNUS E MAJORAÇÕES

- Inclusion of high-tech start-ups and innovative SMEs
- Cross-border cooperation (at least 3 EU/Associated countries)
- Synergy-building with other EU security R&I projects
- Consideration of societal and gender aspects

ELEGIBILIDADE

Modalidade de Candidatura
Consórcio / Copromoção

Setores Elegíveis

- Indústria
- TIC & Software
- Outro

Tipologia de Beneficiário

- Micro
- PME
- Small Mid-Cap
- Mid-Cap
- Grande
- Entidades públicas

Tipos de Ação

- Preparatory action for future pre-commercial procurement (PCP)
- Building consolidated groups of buyers for innovative security solutions
- Market and state-of-the-art analysis for security technologies
- Drafting PCP tendering processes and documentation
- Open market consultations in multiple EU/Associated countries
- Alignment of public procurer requirements with industry
- Validation strategies for rapid innovation uptake
- Addressing societal and gender aspects in security innovation
