DESCRIZIONE

Objectives

This topic aims to generate groundbreaking findings, methodologies and practical solutions that realise the full potential of cultural heritage, the arts and Cultural and Creative Industries as drivers of sustainable innovation and/or a European sense of belonging . Proposals may address either one of these dimensions or combine both, depending on the selected research focus.

The action seeks to support ambitious research that produces transformative and actionable knowledge. Projects should therefore move beyond descriptive studies and demonstrate how their results can be verified, applied and translated into tangible cultural, societal, environmental, economic or policy impacts.

Funding

Funding is provided under a Horizon Europe Research and Innovation Action through a lump sum grant . The topic has an indicative budget of €20 million , with approximately five projects expected to be funded. The expected EU contribution ranges between €2 million and €4 million per project , although proposals requesting different amounts may be considered where appropriately justified.

As a Research and Innovation Action, projects may receive funding of up to 100% of eligible costs for all beneficiary types , including for-profit entities. The call follows a two-stage submission procedure.
