5 novembre 2026 alle ore 17:00 GMT+1 (8 giorni rimanenti)

DESCRIZIONE

Objectives

This call aims to accelerate the uptake and integration of high-TRL (Technology Readiness Level) disaster risk solutions (DRS) across multiple sectors, enhancing societal resilience to a wide range of hazards, including those driven by climate change. The objective is to overcome barriers to deployment, ensure accessibility, and foster collaboration among stakeholders to drive innovation in disaster risk management. Eligible applicants include consortia involving public and private sector organizations, with a mandatory requirement for at least three first responders or authorities in charge of disaster risk from at least three different EU Member States or Associated Countries. These authorities must have legally defined responsibilities in disaster risk management, such as national civil protection authorities or other formally mandated institutions. The call encourages the involvement of SMEs, NGOs, civil society organizations, and research entities, provided they meet the eligibility criteria.

Funding

The support is provided as a non-refundable grant under the Horizon Europe Innovation Actions (IA) scheme. The funding rate is up to 70% of eligible costs for most beneficiaries, and up to 100% for non-profit legal entities. Each project is expected to receive a lump sum contribution of €3 million, with a total topic budget of €6 million and an expected two grants to be awarded. Eligible costs are defined as a lump sum, simplifying financial management for beneficiaries.

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BONUS E MAGGIORAZIONI

- Active involvement of at least 3 first responders or disaster risk authorities from 3 different EU/Associated countries
- Enhanced public-private cooperation in line with the Preparedness Union Strategy
- Use of Copernicus and/or Galileo/EGNOS satellite data if relevant
- Integration of gender dimension in research if relevant
- Synergy with other EU disaster resilience and preparedness projects

IDONEITÀ

Modalità di Candidatura

Aggregata / Partenariato

Settori Idonei

- Energia e Ambiente
- Salute e Life Sciences
- ICT e Software
- Altro

Tipologie Aziendali

- Microimpresa
- PMI
- Grande impresa
- Enti pubblici

- Enti privati non profit

Tipi di Azione

- Large-scale demonstration of high-TRL disaster risk solutions
- Integration of innovative technologies into disaster management frameworks
- Development of interoperability standards and guidelines
- Strategies for scaling and commercializing DRS technologies
- Overcoming technical, regulatory, financial, and social deployment barriers
- Stakeholder collaboration and public-private cooperation
- Promotion of project results and civil security research visibility
- Synergy-building with other disaster resilience projects and funding mechanisms
- Use of digital tools, AI analytics, IoT, and digital twins for disaster preparedness
- Capacity building and training for first and second responders
- Innovation Action
