DESCRIÇÃO

Objectives

This call aims to enhance the prevention, detection, and deterrence of societal issues related to various forms of crime, including terrorism and radicalisation, by supporting research and innovation projects. The focus is on developing modern, validated tools, methodologies, and training curricula for security practitioners such as Police Authorities, NGOs, and Civil Society Organisations. Projects should also provide evidence-based support to policymakers and raise citizen awareness about crime mechanisms and protection strategies. Eligible applicants must form consortia including at least two Police Authorities and two Civil Society or Non-Governmental Organisations from at least three different EU Member States or Associated Countries. Legal entities established in China are not eligible to participate.

Funding

The support is provided as a non-refundable grant under Horizon Europe Research and Innovation Actions (RIA), covering up to 100% of eligible costs. Each project will receive a lump sum contribution of €3 million, with a total topic budget of €6 million and an expected two grants awarded. From 5% up to 20% of the EU funding requested may be allocated for financial support to third parties, with a maximum of €60 000 per third party.
