DESCRIÇÃO

Objectives

This topic aims to develop personalised approaches that reduce the risk of Adverse Drug Reactions (ADRs) caused by the simultaneous administration of multiple medications. The action seeks to improve patient safety by identifying individual risk factors, clinically relevant drug interactions and patient groups particularly vulnerable to adverse effects from polypharmacy.

Projects should generate evidence and practical solutions that enable healthcare professionals to make safer prescribing, treatment and medication-management decisions. The expected results should support more personalised, effective and sustainable healthcare, while reducing avoidable hospitalisations, treatment complications and healthcare costs associated with adverse drug reactions.

Funding

Funding is provided under a Horizon Europe Research and Innovation Action (RIA). The topic has an indicative budget of €38 million, with approximately four projects expected to be funded. The anticipated EU contribution ranges from €8 million to €10 million per project, although proposals requesting different amounts may be considered where appropriately justified.

DESPESAS ELEGÍVEIS

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

ELEGIBILIDADE

Setores Elegíveis

Saúde & Ciências da Vida

Modalidade de Candidatura

Consórcio / Copromoção

Tipos de Ação

Research and Innovation Action

Tipologia de Beneficiário

- Micro
- PME
- Grande
- Entidades privadas sem fins lucrativos
- Entidades públicas

DETALHES DO PROGRAMA UE

ID da Chamada

HORIZON-HLTH-2027-01-CARE-02

Cluster

Health

Destino

D4. Ensuring equal access to innovative, sustainable, and high-quality healthcare

Modo de Submissão

Single-stage

Contribuição UE

Around €8,000,000.00 to €10,000,000.00 per project

Projetos Esperados

4

Regra de Taxa de Financiamento

Up to 100% of eligible costs for Research and Innovation Actions (RIA)
