## Obiettivi

### Objectives

This Horizon Europe Innovation Action (IA) , implemented under the European Partnership on Globally Competitive Space Systems (Space Partnership) , aims to prepare and demonstrate advanced Earth Observation (EO) and Satellite Communications (SatCom) missions that strengthen the competitiveness, resilience and technological autonomy of the European space sector. The call supports the development of end-to-end space solutions integrating digital technologies, artificial intelligence, advanced payloads and secure communications to enable more flexible, reactive and commercially attractive space-based services.

### **Funding**

The topic is funded as a Horizon Europe Innovation Action (IA) with an indicative budget of €26 million . The European Commission expects to support approximately four projects , with indicative EU contributions generally ranging between €5 million and €10 million per project . The call is designed to support large-scale demonstration activities and accelerate the market deployment of innovative European space technologies.
