DESCRIZIONE

Objectives

This topic aims to support implementation research on evidence-based interventions for preventing and managing chronic Non-Communicable Diseases (NCDs) in children and young people aged 1 to 24 years. The focus is on populations in low- and middle-income countries and disadvantaged groups in high-income countries.

Projects should generate practical evidence on how proven interventions can be adapted, implemented and scaled up in real-world settings. The action seeks to improve health outcomes, reduce inequalities and strengthen the capacity of health systems and communities to address NCD risks among children and young people. Meaningful involvement of affected communities, young people, healthcare professionals, policymakers and other relevant stakeholders is expected throughout the research process.

Funding

Funding is provided under a Horizon Europe Research and Innovation Action (RIA). The topic has an indicative budget of €11.8 million, with approximately three projects expected to be funded. The anticipated EU contribution ranges from €3 million to €4 million per project, although proposals requesting different amounts may be considered where appropriately justified.

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

IDONEITÀ

Modalità di Candidatura

Aggregata / Partenariato

Settori Idonei

- Salute e Life Sciences
- Altro

Tipologie Aziendali

- Enti pubblici
- Microimpresa
- PMI
- Small Mid-Cap
- Mid-Cap
- Grande impresa
- Enti privati non profit

Tipi di Azione

- Implementation research
- Policy evaluation
- Prevention strategies
- Screening and diagnosis
- Management of NCDs
- Capacity building
- Stakeholder engagement
