DESCRIZIONE

Objectives

This incentive aims to deepen the understanding of the relationship between the social economy and sustainable competitiveness across the European Union. Projects funded under this call should contribute to knowledge development regarding how social economy actors—such as cooperatives, associations, mutual societies, foundations and social enterprises—drive innovation, quality, productivity, social inclusion, and environmentally friendly practices. The objective is to inform policy makers and private sector stakeholders on best practices and reforms that can enhance the social economy's impact on EU competitiveness and prosperity objectives. The eligible entities for this call include research institutions, universities, social economy organizations, traditional firms, and relevant stakeholders from both public and private sectors.

Funding

The funding model for this call is based on a lump sum grant under the Horizon Europe Research and Innovation Actions (ARIA). The maximum co-financing rate is up to 100%, depending on the beneficiary type. The overall call budget is EUR 12,000,000, with the expected EU contribution per project ranging between EUR 3,000,000 and EUR 4,000,000. Typically, three projects are expected to be funded within this topic.
