OBIETTIVI

This call aims to accelerate the decarbonisation of energy-intensive industries in the EU, supporting the Clean Industrial Deal's ambition to make Europe a leader in clean, competitive, and sustainable industrial production. The focus is on deploying innovative technologies that reduce greenhouse gas emissions, enhance resource efficiency, and bring clean products to market. The call targets consortia led by industry, with a preference for manageable, justified consortium sizes and encourages SME participation. Eligible applicants include legal entities from EU Member States and Associated Countries, with restrictions on entities controlled by China. The call is open to projects that demonstrate industrial leadership and a credible pathway to market deployment, including a robust business plan and exploitation strategy.
