DESCRIÇÃO

Objectives

This topic aims to improve understanding of the current state, threats and effective methods for safeguarding and transmitting Intangible Cultural Heritage (ICH) in Europe, in line with the 2003 UNESCO Convention for the Safeguarding of the Intangible Cultural Heritage . ICH includes living practices, representations, expressions, knowledge and skills, as well as the associated instruments, objects, artefacts and cultural spaces transmitted between generations and continuously recreated by communities.

Projects should strengthen intergenerational transmission, empower communities to safeguard their own heritage and increase recognition of the social, cultural and economic value of ICH. The action should also explore the relationship between intangible heritage, cultural and biological diversity, the natural environment, social cohesion, creativity and sustainable development.

Funding

Funding is provided under a Horizon Europe Research and Innovation Action (RIA) through a lump sum grant . The topic has an indicative budget of €12 million , with approximately three projects expected to be funded. The expected EU contribution ranges between €3 million and €4 million per project , although proposals requesting different amounts may be considered where appropriately justified.

As a Research and Innovation Action, projects may receive funding of up to 100% of eligible costs for all beneficiary types , including for-profit entities.
