Strengthening evidence-based policies for the resilience of European agriculture and forestry and related supply chains against crises and systemic risks

Horizon Europe

PENDING

Code
HORIZON-CL6-2027-02-CLIMATE-02

Scope
International

Location
Europe

Curator
Marlene Faria

FINANCIAL DETAILS

Support type
Non-Refundable

Maximum Funding Rate
100%

Budget
12M€

Eligible Project Value
Up to 6M€

DATES & DEADLINES

Publication Date
December 12, 2025

Opening Date
April 20, 2027

Deadline
September 23, 2027 at 05:00 PM GMT+2

DESCRIPTION

Objectives

This call aims to strengthen evidence-based policies for the resilience of European agriculture and forestry, as well as related supply chains, against crises and systemic risks. The objective is to improve the understanding of how these sectors are exposed to and impacted by complex systemic risks and crises, including those amplified by climate change and trade disruptions. The call targets collaborative, interdisciplinary research that enhances analytical capacity and provides recommendations for policy instruments and strategies to assess, prevent, and manage systemic risks. Eligible applicants are consortia of legal entities from EU Member States and associated countries, including research organisations, universities, public and private entities, and the Joint Research Centre (JRC) as a non-funded partner.

Proposals must clearly address either Area A (Agriculture and agri-food supply chains) or Area B (Forestry and forest-based supply chains).

Funding

The support is provided as a non-refundable grant in the form of a lump sum. The funding rate is up to 100% of eligible costs for Research and Innovation Actions (RIA). Each selected project will receive a contribution of 6.000.000 EUR, with a total topic budget of 12.000.000 EUR. Two grants are expected to be awarded, one for each area (A and B).

ELIGIBLE EXPENSES

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BONUSES & MAJORATIONS

- Collaboration with other projects under this topic
- Synergies with EU Missions on Adaptation to Climate Change and Soil
- Use of European research infrastructures
- Effective integration of social sciences and humanities
- Participation of the Joint Research Centre (JRC) as a consortium member

ELIGIBILITY

Application Mode
Consortium / Copromotion

Eligible Sectors

- Agro-Food
- Forestry
- Industry
- Other

Company Typologies

- Micro
- SME
- Small Mid-Cap

- Mid-Cap
- Large
- Private non-profit entities
- Public entities

Action Types

- Research on systemic risks and crises affecting agriculture, forestry, and supply chains
- Development of analytical tools for risk exposure and impact assessment
- Socio-economic and technological options for resilience strategies
- Integration of climate change and trade disruption effects into policy analysis
- Collaboration with other EU-funded projects and initiatives
- Interdisciplinary work combining SSH and STEM disciplines
- Use of advanced digital technologies for risk management
- Assessment of policy instruments for crisis prevention and management
- Analysis of supply chain vulnerabilities and dependencies
- Evaluation of costs and benefits of action versus non-action
- Capitalisation on existing research and infrastructures
- Stakeholder engagement and science-policy interfaces
- Research and Innovation Action

EU PROGRAMME DETAILS

Call ID
HORIZON-CL6-2027-02-CLIMATE-02

Cluster
Cluster 6: Food, Bioeconomy, Natural Resources, Agriculture and Environment

Destination
D5. Land, ocean and water for climate action

Submission Mode
single-stage

EU Contribution
€6,000,000.00 per project

Expected Projects
2

Funding Rate Rule
Up to 100% of eligible costs for Research and Innovation Actions (RIA)
