DESCRIZIONE

Objectives

This call aims to strengthen the resilience of European farmers by improving their capacity to cope with diverse risks and crises, particularly in the context of climate change and biodiversity loss. The objective is to provide integrated knowledge and solutions that enable farmers and agri-food supply chain operators to better prevent, prepare for, and manage risks and crises. Policymakers are also targeted, with the goal of equipping them with evidence and understanding to support more effective strategies for risk and crisis management. The call is open to consortia applying the multi-actor approach, including farmers, researchers, government representatives, agri-food supply chain operators, and civil society organizations. International cooperation is encouraged, and the involvement of Social Sciences and Humanities disciplines is required.

Funding

The support is provided as a non-refundable grant under the Horizon Europe Research and Innovation Actions (RIA) scheme. The funding rate is up to 100% of eligible costs. Each project is expected to receive a lump sum contribution of 6.000.000 EUR, with a total topic budget of 12.000.000 EUR and two grants expected to be awarded.

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BONUS E MAGGIORAZIONI

- Proposals including multi-actor approach with balanced mix of actors
- Collaboration with Joint Research Centre (JRC)
- Synergies with EU Missions on Adaptation to Climate Change and Soil
- Use of participatory infrastructures (e.g., living labs, demonstration sites)

IDONEITÀ

Modalità di Candidatura
Aggregata / Partenariato

Settori Idonei

- Agroalimentare
- Industria
- Energia e Ambiente
- Altro

Tipologie Aziendali

- Microimpresa
- PMI
- Small Mid-Cap
- Mid-Cap
- Grande impresa
- Enti privati non profit
- Enti pubblici

Tipi di Azione

- Research on risk and crisis management in farming systems
- Development of integrated risk and crisis management strategies
- Assessment of farm resilience and adaptation capacities
- Testing of proposed strategies using experimental approaches
- Capacity building, training, and education on risk management
- Analysis of risk sharing and derisking measures in agri-food supply chains
- Collaboration with other EU-funded projects and initiatives
- Inclusion of Social Sciences and Humanities in research
- International cooperation activities
- Research and Innovation Action
