DESCRIÇÃO

Objectives

This topic aims to strengthen the culture of democratic and civic participation among students and families within primary and secondary education levels. The core objective is to support research projects that investigate how schools can act as hubs for participatory practices and democratic engagement, focusing specifically on the active roles of students, families, and educators in fostering citizenship education. Entities eligible to participate include legal entities established in EU Member States or Associated Countries and forming consortia as per Horizon Europe rules, typically involving education and research organisations, policy makers, and relevant stakeholders in the fields of social sciences and humanities.

Funding

Funding is provided under a Horizon Europe Research and Innovation Action (RIA). The topic has an indicative budget of €12 million, with the European Commission expecting to fund approximately three

projects. The expected EU contribution ranges between €3.5 million and €4 million per project, although proposals requesting different amounts may be considered where appropriately justified. As a Research and Innovation Action, projects may receive funding of up to 100% of eligible costs for all beneficiary types, in accordance with Horizon Europe rules. Eligible costs will be covered through a lump sum grant, based on the activities, work packages and total amount approved in the Grant Agreement.
