Descrição

Objectives

This topic aims to support the implementation, coordination and long-term impact of the EU Mission on Cancer by strengthening collaboration among key stakeholders across the European cancer ecosystem. The action seeks to facilitate knowledge exchange, stakeholder engagement, dissemination of best practices and alignment of activities across Member States and Associated Countries. Particular emphasis is placed on supporting the Mission's objectives through networking, capacity building, policy support and the mobilisation of research organisations, healthcare providers, public authorities, patient organisations and other relevant actors.

Funding

Funding is provided under a Horizon Europe Coordination and Support Action (CSA). The topic has an indicative budget of €3 million, with the European Commission expecting to fund one project. The expected EU contribution is around €3 million per project, although proposals requesting different amounts may be considered if appropriately justified. As a Horizon Europe Coordination and Support Action, projects are eligible for 100% funding of eligible costs, in accordance with Horizon Europe funding rules.
