OBIETTIVI

This call aims to support systemic approaches that accelerate transformative change for biodiversity, targeting the underlying causes of biodiversity loss and nature's decline. The objective is to equip policy and decision makers, as well as institutional, business, financial, and economic actors, with the tools and insights needed to integrate educational, cultural, societal, and behavioural factors into policy and practice. The call encourages transdisciplinary collaboration among natural and social sciences, humanities, and cultural and creative sectors to identify and test interventions that incentivise nature-positive practices. Eligible applicants include consortia from EU Member States and Associated Countries, involving a multi-actor approach with stakeholders from various sectors, including academia, business, public authorities, and civil society. International cooperation and participation of outermost regions are encouraged.
