DESCRIZIONE

Objectives

This call aims to reinforce the resilience of critical entities against a broad range of natural and human-induced disasters, including hybrid and cascading events. The objective is to develop and demonstrate targeted high-tech capabilities that address preparedness, operational, and recovery gaps in critical infrastructure resilience. The call is open to consortia including public and private entities such as critical infrastructure operators, authorities responsible for infrastructure resilience, civil protection authorities, first responder organisations, authorities managing NaTech events, and law enforcement or private security companies. At least three relevant practitioners from EU Member States or Associated

Countries must be involved as beneficiaries, each representing a distinct practitioner type. Entities established in China or controlled by Chinese entities are not eligible. The call supports international cooperation, especially in regions with cross-border infrastructure or shared vulnerabilities.

Funding

The support is provided as a non-refundable grant in the form of a lump sum. The funding rate is up to 70% of eligible costs for Innovation Actions, and up to 100% for non-profit legal entities. Each project is expected to receive a contribution of €4.5 million, with a total topic budget of €9 million. Two grants are expected to be awarded under this call.

SPESE AMMISSIBILI

- Personnel Costs
- Travel costs
- Equipment costs
- Other goods, works and services costs
- Subcontracting
- Indirect Costs

BONUS E MAGGIORAZIONI

- Involvement of at least 3 relevant practitioners from different eligible countries
- International cooperation, especially in regions with cross-border infrastructure
- Use of Copernicus and/or Galileo/EGNOS for satellite-based data if applicable

IDONEITÀ

Modalità di Candidatura

Aggregata / Partenariato

Settori Idonei

- Energia e Ambiente
- Logistica
- ICT e Software
- Altro

Tipologie Aziendali

- Microimpresa
- PMI
- Small Mid-Cap
- Mid-Cap
- Grande impresa

- Enti privati non profit
- Enti pubblici

Tipi di Azione

- Development and demonstration of high-tech capabilities for critical infrastructure resilience
- Deployment and testing of interoperable technological and governance solutions
- Design and implementation of adaptive continuity planning and decision-making tools
- Cross-border, multi-actor coordination mechanisms and simulations
- Risk assessment and prioritisation of capability gaps
- Verification of existing measures countering NaTech risks
- Demonstration of advanced technological solutions for multi-hazard scenarios
- Innovation Action

DETTAGLI PROGRAMMA UE
