DESCRIZIONE

Objectives

This call aims to support the design, development, and testing of technical innovations that facilitate the protection and restoration of ecosystems. The focus is on making ecosystem restoration activities easier and more effective for stakeholders, and on improving the conditions for scaling up the implementation of the EU Nature Restoration Regulation. The expected impact is to contribute to the recovery of biodiversity and the restoration of ecosystems and their services, including climate mitigation and adaptation. Eligible applicants include consortia of legal entities established in EU Member States or Associated Countries, with particular relevance for SMEs, but open to a wide range of stakeholders including research organisations, public entities, and non-profits.

Funding

The support is provided as a non-refundable grant in the form of a lump sum. The funding rate is up to 70% of eligible costs for Innovation Actions, and up to 100% for non-profit legal entities. The total budget

for the topic is €14 million, with an expected two grants of €7 million each. Eligible costs include purchases of equipment, infrastructure, or other assets specifically for the action, which may be declared as full capitalised costs.
