DESCRIÇÃO

Objectives

This Horizon Europe Innovation Action (IA) , implemented under the Textiles for the Future Partnership , aims to accelerate the transition towards a circular and sustainable European textile industry. The call supports the large-scale adoption of renewable textile fibres and sustainable chemical solutions that can replace fossil-based materials while maintaining product quality, functionality and durability. Projects are expected to contribute to reducing the use of virgin fossil-based materials and chemicals in textile products, improving resource efficiency, reducing environmental impacts, and strengthening circular business models across the textile value chain.

Funding

The topic is funded as a Horizon Europe Innovation Action (IA) with an indicative budget of €16 million . The European Commission expects to support approximately three projects , with indicative EU contributions generally ranging from €4 million to €6 million per project . Funding is provided under Horizon Europe rules applicable to Innovation Actions.
