DESCRIZIONE

Objectives

This call aims to support research and innovation for the development, testing, and integration of advanced digital travel credentials (DTCs) for secure and efficient border management at the EU's external borders. The focus is on enhancing the issuance, validation, and sharing of future DTC types, integrating innovative biometric modalities, and improving secure connectivity and interoperability. The call targets projects that contribute to the technological sovereignty of European authorities, facilitate legitimate movement of people and goods, and strengthen the security and resilience of EU borders. Eligible applicants include consortia with at least two Border or Coast Guard Authorities from at least two different EU Member States or Associated Countries. Legal entities established in China are not eligible for participation in this topic.

Funding

The support is provided as a non-refundable grant under Horizon Europe Research and Innovation Actions (RIA), covering up to 100% of eligible costs. Each project is expected to receive a lump sum contribution of €4 million, with a total topic budget of €8 million and two grants expected to be awarded.
